Compliance Summary

Patents, Tested Standards, Registrations & Production Standards

1. Silver Textile Patents

- a. European Patent Registration #EP 3 228 735 A1, dated October 11, 2017.

2. Silver Textile Pathogen Testing

- a. ISO 18184:2019 – antiviral including surrogates for norovirus (feline calicivirus) and coronavirus (OC43)
- b. AATCC30 - antifungal
- c. JISL1902;2015 - antibacterial - Passed after 400 washes
- d. AATCC TM147- no leeching of silver from the textile
- e. ASTM E3160 antibacterial - >3 log reduction of the test organism compared to the control
- f. ASTM wk#45351 antibacterial testing 140 tests on different fabrics >3 log reduction of test organism
- g. ISO 22196 - antimicrobial surfaces > 3 log reduction of test organism
- h. Nelson Labs (Sotera) Report - no cytotoxicity, sensitisation or irritants detected .

3. Silver Textile Accreditations

- a. USEPA Approval, Registration #94658-1, dated January 31, 2020.

4. Silver Textile Accreditations under Review

- a. USFDA Application under review.

5. Mask Accreditations

- a. Class II Personal Protection Equipment under EU Regulation 2016/425 and amended and approved under a RfU developed by European Notified Bodies and Laboratories.

6. Mask Design Copyright

- a. Intellectual Property Office, Registration #6091163, dated June 2, 2020.

7. Snood Accreditations

- a. Class II Personal Protection Equipment under EU Regulation 2016/425 and amended and approved under a RfU developed by European Notified Bodies and Laboratories.

8. Snood Design Copyright:

- a. Intellectual Property Office, Registration # 6091164, dated June 2, 2020.

9. Mask and Snood Production Standards:

- a. ISO 9001-2015 – Quality Management Systems.
- b. ISO 14001-2015 – Environmental Management Systems.
- c. ISO 50001-2018 – Energy Management Systems.
- d. OEKO-TEX Standard 100 – ISO 17050-1. Fabric tests for control over COSHH as applied to each fabric in contact with skin.
- e. OHSAS – Occupational Health and Safety Management System – 18001-2007.
- f. Any Blue-line certification – not compulsory.

10. Activator Accreditations

USP 51 – passed for eight organisms tested in 5 minutes

tested against coronavirus 229E

11. Sanitizer Accreditations:

- a. EN 1276 – passed for all four organisms tested in 60 seconds 31/05/2020
- b. EN 1500- passed at 60seconds reported 13/06/2020

12. Data Protection

- a. Registered with the Information Commissioner's Office for Data Protection.
- b. Issued GDPR Privacy Policy.
- c. Issued GDPR Privacy Notice.
